RE: Product application

Dear Jim:

As per your request for product application around the Oceanside Harbor and it's durability, we have used your product in a couple of different ways. Primarily we are using Monster Grip for the dock ramps. We find Monster Grip easy to apply, it adheres well, and is very durable. We have also used Monster Grip for our deck coating around the upstairs office. The product looks good and does not discolor in the sun. Monster Grip is water based and it helps with keeping hazardous material storage to a minimum.

I hope this helps you with inquiries about your product from interested parties. We at the Oceanside Harbor are looking forward to many years of product use and as many different applications as we may find.

Sincerely,

Vincent S. Balch
Maintenance Supervisor, Dept. of Harbor & Beaches, City of Oceanside
Oceanside, Ca.
